## MASKOWNICE GRZEJNIKOWE

- Nasze maskownice grzejnikowe sprawiają, że mało ciekawy czy wręcz brzydki grzejnik staje się estetycznym elementem stanowiącym integralną część całego pomieszczenia. W błyskawiczny i prosty sposób stary grzejnik schowany za naszą maskownicą staje się nowym, wzorniczym akcentem w Twoim pomieszczeniu. Element dostępny jest w dwóch grupach wzorniczych: ażurowej oraz ramowej, w różnych rozmiarach i kolorach, z wykończeniem matowym oraz high gloss. Nowością w ofercie są obudowy stojące do maskownic grzejnikowych.

## HEIZKÖRPERVERKLEIDUNGEN

- Unsere Heizkörperverkleidungen machen aus uninteressanten oder sogar hässlichen Heizkörpern wieder ein ästhetisches Element, das ein integraler Bestandteil des gesamten Raumes bildet. Die schnelle und einfache Möglichkeit alte Heizkörper zu erfrischen - es reicht aus, diese hinter unseren Heizkörperverkleidungen zu verstecken. Das Standardelement ist in sechs Modellen erhältlich sowie in verschiedenen Größen und Farben, matt und hochglänzend. Wir bieten auch Fensterbänke und Montagesystem für unsere Abdeckungen.

## RADIATOR COVERS

- Our radiator covers can transform an unattractive or even ugly radiator into an aesthetic element, constituting an integral part of the entire room. In a prompt and easy way, an old radiator hidden behind our cover becomes a new design highlight of your room. The element is available in six standard designs, in various sizes and colours, with a matt or high gloss finish. We also offer window sills and an installation system for our covers.
